▲ **YOU'LL CRUSH ON WESCAN'S FYSH UK.** The edgy and rectangular design of Style No. F-3434, the new full-rimmed model from Wescan's Fysh UK, is inspired by the many textures found in crushed metal. Infused with a splash of the future, this frame is offered in brown, turquoise, violet, and pink (turquoise and violet shown here). For more information, contact Wescan Optical at 514-383-0042 or at fyshuk.com.

NOUVEAU GETS SAUCY WITH GEOFFREY BEENE. Saucy Nouveau's new Geoffrey Beene frame, features multiple acetate layers and a soft teacup shape. It's available in two color combinations: a dark rich purple with a crystal pink and purple inside layer and a dark espresso brown with a bone and horn inside layer. Pressed metal detail accents the temples with a design reminiscent of stonework. For more information, contact Nouveau Eyewear at 800-292-4342 or nouveaueyewear.com.
