Oliver Peoples

The Evason is a very masculine frame handcrafted of bold acetate in rich colors Workman Grey, Matte Moss Tortoise, Amber Tortoise/Buff Gradient, Black and Cocobolo. The classic sunglass features vertical pins on the frame front, adding simple detail to this handsome style. VFX polarized or photochromic glass lenses offer great protection from the sun. www.oliverpeoples.com

Spy Optic

Libra: When it came to making a women's specific performance frame we didn't just "pink it and shrink it," we designed and built this lovely thing from scratch. Libra's smaller fitting frame built from high quality Grilamid still manages to pack in a plethora of technical features including 8-base Victory lenses, patented Scoop ventilation system, 100% UV protection and comfortable Hytrel temple tips. www.spyoptic.com

Evatik

Evatik Sunwear is a collection of models that join casual luxury and versatility to deliver unrivalled style. Featured is E-1031, a model with an acetate front and acetate wood grain finish on the temples. This model is a sporty new sunglass model available in black red and tortoise in size 60-19-140. Dually inspired by fashion and performance Evatik Sunwear perfectly blends modern, masculine styling with superior lens capabilities.

Miro Optix

When bodies in motion collide, you want your frames to withstand even the toughest hits. Enter DIVISION 1 and its (M)FORCE technology. Based on the principles of acceleration and force, (M)FORCE was engineered to meet the needs of today's athlete. Every Division 1 frame has the ability to perform as a temple with strap or as a wide head strap. This convertible option allows athletes to meet eyewear requirements for multiple sports. www.mirooptix.com

Silhouette

With a mix of Performance Steel and SPX, compose features a bridge and hinge design with color combinations to excite even the most stylish of wearers. The temples are encased in ELAST-X, a non-stick traction grip polymer material, used widely in the sporting goods industry, in sport equipment such as ski boots and climbing aids. www.silhouette.com
