EVATIK Pairs Fashion with Performance

Exuding a masculine, yet trendy, vibe, the EVATIK Sun collection houses shades perfect for the refined athlete who means business. Guys who are in the office by day and gym by night—making frequent pit stops at afternoon sporting events and happy hour hot spots—crave eyewear that will travel with them to all their macho activities. And the latest EVATIK sunnies for men can do just that.

Crafted with acetate and stainless steel in a neutral, urban color palette—featuring navy, black, gray, copper and darkened silver hues—these shades instantly take on a sleek look, especially with their true and rounded rectangular silhouettes. Hints of wood grain finishing, texturized metal and lustrous materials along the frames and temples bring modern personality to these sunnies. Whether they're paired with a dapper business suit, impressive going-out attire or even chill workout gear, these sunglasses will always appear manly and fashion-forward.
