◀ **MOREL TAKES ALPHA MALES SERIOUSLY.** Available in two semi-rimless and four full-rimmed shapes, Morel's Alpha 17 style boasts clean angles and a crisp look. As with the rest of the Lightec collection, the Alpha 17 is 100% stainless steel and fitted with a screwless "Alpha" spring hinge. Colorways include green (shown here), orange, red, gray, dark blue, and black, and five of the six models are progressive-friendly. **For more information, contact Morel at 800-905-2240 ext. 1039 or [morel-france.com](http://morel-france.com), or at Vision Expo West, #G21015.**

**WESTGROUPE'S FYSH HAS FLOWER POWER.**

A full-rimmed acetate frame with a floral laser print on its temples, Style No. 3469 from WestGroupe's FYSH UK collection is a modified cat eye. This design features a marble effect on the frame fronts as well as on the temples' edges.

Colorways include brown, black, and burgundy (shown here). **For more information, contact WestGroupe at 800-905-2240 ext. 1076 or [fyshuk.com](http://fyshuk.com), or at Vision Expo West, #18023. ▶**

◀ **MYKITA'S DECADES IS A SIGN OF THE TIMES.** The new sun collection from MYKITA feature the company's lightweight flat-metal concept, which employs 0.5mm stainless steel frames. Aldous and Truman boast a square eyeshape; Mareike joins panto and cat-eye elements; and Maple features a more rounded eyeshape. Colorways include Yves Klein blue, saffron brown, opal green, and pastel gray. Lenses have a light, mirrored gold coating to match the gold hinge of each frame. **For more information, contact MYKITA at 800-905-2240 ext. 1040 or [mykita.com](http://mykita.com), or at Vision Expo West, the Suites.**
