SHAPE Issues for Women

Women WELL understand the LOOK of an object and certainly the issues of fashion and style kick in with a vengeance when it comes to the "shape" of those objects. Handbags. Shoes. Jewelry. A room. A building. Cars. The cut of a jacket. The flair of a skirt. The length of a pant leg. Their bodies. HIS body. Never underestimate the importance of shape with a woman's eyewear. Her spectacles are an imperative part of her whole spectacle.
