NEW

EYENAVISION, INC., Chemie™, 1402 Featuring patented magnetic-lens layering, the latest styles in this collection are steeped in color-infused tortoisés, crystal and jewel tones, and earth-toned stripes. The nine acetate and metal frames may be purchased individually as Chemie™ Tech or Chemie™ Readymade™ Plus or as a completed job with stock lenses. 888-321-3939, eyenavision.com.

KIRK & KIRK, Vivarium, Gilbert Inspired by science and nature, Kirk & Kirk's debut ophthalmic (Vivarium) and sun (Solarium) styles in acrylic—handmade in France—are decorated with an animal pin in either 925 sterling silver or 9-karat gold. 011-44-1273-384-989, kirkandkirk.com.

NEW-EYE-COMPANY, IC Safety and Sport System. From down under comes ANSI Z87.1-approved, fixable, protective eyewear with polycarbonate wraparound frames providing UV 400, anti-fog, and anti-scratch resistance, and a patented optical Astralon™ insert foil offering a 170°, distortion-free field. 011-61-7-3885-2634, neweyeco.com.

ZYLOWARE EYEWEAR, MaxStudio.com, 133Z

With contemporary shapes in bold colors for the sophisticated female wearer, these new zyl frames integrate a globe logo into either the hinge on the endpiece or temple. Styles 132Z and 134Z accommodate progressives. 800-765-3700, zyloware.com.

CLEARVISION OPTICAL, Marc Ecco Cut & Sew, Heartache

These trendsetting suns blend retro and modern design with the feel of speed and rugged sportiness. Deconstructed temples, industrial accents, and severe angles further define Marc Ecco's "geek chic" collection. 800-645-3733, cvoptical.com.

WESTGROUPE, KLIiK, K-527

A semi-rimless stainless steel model for women, the K-527 sports a sharp look with a tone-on-tone rectangular shape and surface interest created by a quilted pressed pattern on the temples. It's available in brown, turquoise, red melon, purple black, and black white. 800-361-6220, kliik.com.
