◀ **WESTGROUPE'S KLIK MIXES IT UP.** Featuring two-toned metals, vibrant acetates, and ombré frames, the new styles from Kliik give wearers varied looks from which to choose. Style No. K-499 is ideal for wearers with petite faces, and features either a tortoise or striped pattern. Colorways for this acetate frame include tortoise purple, forest gray, black stripe, and purple stripe (shown here). The two-toned Style No. K-501 is a stainless steel design that brings a round eyeshape to the forefront. Colorways include purple coral, burgundy hazelnut, black lime, and brown aqua. **For more information, contact WestGroupe at 855-455-0042 or westgroupe.com.**

MCGEE'S BADGLEY MISCHKA IS RUNWAY READY. The newest styles from the Badgley Mischka eyewear collection embrace glamour, style, and confidence. Francine and Corine, two ophthalmic styles, are made with Italian acetates and feature Swarovski crystals. Each is available in black and brown. Riva, an ophthalmic style with an angular eyeshape and clear crystal front, is available in plum crystal and emerald crystal. Lela, also an ophthalmic, is available in black and cabernet. Sun style Charlize (shown here) has an oversized cat-eye shape and laminated end-pieces. Its temples sparkle with Swarovski stones and a recessed, vintage-filigree-inspired décor. **For more information, contact The McGee Group at 800-966-2020 or mcgeegroup.com.** ▶

◀ **L'AMY'S COLUMBIA ENJOYS ADJUSTABILITY.** An innovative frame design and material lifts Columbia to new heights with the introduction of F90A: Ultra Lite Adjustable Ophthalmics. Styles include Eriksson and Steen's Mountain (shown here), both featuring stainless steel frame fronts and flat profiles. The "F" stands for flat, while the "90" comes from the H-90 material that's injected-molded in the frames' flat profiles. The "A" is a reminder of these styles' total adjustability. **For more information, contact L'Amey America at 800-USA-LAMY or lamyamerica.com.**

SPY'S LIBRA SEES THE SIGNS. The latest addition to SPY's Performance series brings Libra to women on the hunt for a sunglass option that brings style and function together. The Libra is designed with active females in mind, and features a smaller-sized wraparound frame. Featuring 7-Base Victory™ lenses and the company's patented Scoop® ventilation system, this style is made with Grilamid™ and has Hytre!™ rubber nose pads and flexible temple tips. Colorways include white with bronze with pink Spectra™ lens (shown here), mint chip fade with bronze lens, and black with merlot fade lens or gray polarized lens. **For more information, contact SPY Inc. at 800-779-3937 or spyoptic.com.** ▶
