WestGroupe Launches New Website

Published:

06 August 2015

0 Comments

(PRESS RELEASE) WestGroupe has introduced a newly redesigned website with a more contemporary look, easier navigation, that is more user-friendly and completely responsive.

This means that no matter what device you use to view the site (tablet, smartphone, etc.), there will be a minimum of scrolling and resizing needed to view the content.

Although the site has a brand-new look, features customers enjoyed on the old website are still available – everything from creating a custom catalog, to placing orders online, to viewing upcoming events.

WestGroupe says its goal is to keep everything clear and simple when it comes to the website, so every customer continues to have access to their statements, order status, order history and invoices.

Along with this fresh new look, the site also has links to all of the WestGroupe social media sites.

For more information about WestGroupe and its brands, visit the new website at www.westgroupe.com.
