

Back to school: Autumn's must-have children's frames

Kids go back to school in September, but what ophthalmic frames will they be wearing for the new term? Optician compiles a visual directory of this season's must haves

SFK-185 and SFK-186r

Frames in the Superflex Kids collection have been designed around fitment and fun. Styles feature spring hinges for added durability and funky temple detailing which allows children to make a statement.

SFK-185

Metal boy's frame SFK-185 has a grown-up Scandinavian feel, with a minimalist front shape.

SKF-186

Patterned temples inject some fun. Girl's model SKF-186 has a panto-inspired silhouette and features mottled temple colour schemes.
