SAFILO'S MARC BY MARC JACOBS IS BACK. The new collection's 11 vintage-inspired frames are the first ophthalmics from Marc by Marc Jacobs since July 2008. Cutting-edge, sophisticated, and urban-inspired, these eight women's styles and three unisex models are reminiscent of the 1950s, 1970s, and 1980s. Fun and flirty logo treatments seen on the brand's shoes and handbags are translated to the eyewear line. Shapes range from modified ovals and cat eyes to soft, shallow silhouettes in shades of violet plum, brown teal, and burgundy red, to name a few. **For more information, contact Safilo USA at 800-631-1188 or safilo.com. ▼**

WESCAN PLEASES ALL THIS SPRING WITH KLIIK:DENMARK. With styles ranging from semi-rimless to full-rimmed and from acetate to stainless steel, Kliik:denmark's latest line is both sassy and modern. Style No. KL-421 stands out with its contrasting color variations coupled with its abstract temple design. This semi-rimless metal frame comes in burgundy silver, teal silver, purple turquoise, and brown light green. And those with petite faces will love Style No. KL-423's full-rimmed combination frame with a stainless steel front and TR-90 graphic print temples. It's available in dark brown, purple, black, green, and orange. **For more information, contact Wescan Optical at 514-383-0042 or kliik.com. ▼**
